Subject Index

Achatina fulica snail, 63
ALZET mini-osmotic pump, 187
AMG (alkyl-methyl-glycerol), 143
5-Aminosalicylate, 217
Anti-CD3 antibody, 191
Antibody-dependent cellular cytotoxicity, 73
Antibody response, 225
Astragalus membranaceus, 225
ATP, 175
ATPγS, 175
B cell proliferation, 57
Bacillus Calmette-Guerin, 183
Beta-agonist, 81
Binding, 31
1,3-Bis(2-chloroethyl)-1-nitrosourea, 153
Cadmium, 73
Calcium, 31
CD4 modulation, 135
CD4 output stimulation, 207
Cerastes cerastes venom, 115
Chemiluminescence, 115
Chlorozotocin, 153
Cimetidine, 183
Circadian rhythm, 187
Concavalin A, 191
Corticosteroid, 187
Cyclosporin A, 31, 191
Cyclosporin A toxicity, 21
Cyclosporine, 57
Cytochalasin B, 45
Cytotoxicity, 217
Difluoromethyl ornithine, 11
Edema, 81
Endotoxin, 105
Ether lipid, 143
Fish oil, 21
FK-506, 57
Ganglioside, 135
Gold, 125
Histamine, 31
Histamine release, 143
Human basophil, 31
Human phagocytic cell, 115
IL-2 receptor expression, 191
Immunity, 187
Immunological LTP, 207
Immunological memory, 207
Immunosuppression mitogen, 63
Immunosuppression agent, 165
Interferon gamma, 125
Interleukin, 11
Interleukin, 1, 125
Interleukin-2, 73, 201
Interleukin-2 production, 97
Interleukin-2 receptor, 1, 11
Ionophore A23187, 143
K^+ channel, 97
Lamina propria lymphocyte, 89
Lectin, 63
Leukotriene C_4, 81
Leukotriene, 31
LSA tumor, 153
Lymphocyte proliferation, 1, 11
Lymphocyte traffic, 207
